## **FARBEN SHINE DEGAWET EMG** **Dispergator for Fatliquors**

**Chemical Structure** : Sulfate fatty alcohol based material

**Apperance** : Clear liquid

**Concentration** : % 26,5 ± 1,0

**pH (%10 in water)** : 6,5 - 7,5

### **Properties And Application :**

-Farben Shine Degawet EMG that has softening properties is very effective dispersing and stabilizing material. Product can be applied inmain fatliquoring, mineraltanning and during pickle process alone or mixing with other fatliquors that resistant to pickle.

- With use of the product, it is obtained a better distribution of fatliquors and increasing softness. Thus, fatliquors displaying more efficient penetration and distribution imparts physical properties that increase the tear and tensile strength of the leather.

### **Recomended usage rates :**

According to the characteristic of fat 0,5 – 1,5 %

### **Storage :**

In a cool and dry place in original packaging, can be stored for a period of one year. Product must be protected from excessive heat and cold.

### **Package :**

120 kg drums.
